

SIRE: RP05-1864(Bradman)

DAM: RP394 x GD418

DOB: 15/6/2009

MICRON: 17.5 **S.D:** 2.9

C.V: 16.6 **C.F:** 99.5%

BWT: 136Kg (13/6/11)

COMMENTS: This ram is a full embryo brother to the \$13,000 top priced ram at our on-property sale last year. He is also the half brother to our very successful semen sire RP09-0014 (Sharing the same dam). RP09-0044 is a well built, meat machine, showing outstanding structure & size. His wool is bright, soft handling Fine/Medium wool. He has been used extensively in this stud this year through AI (270 Ewes) & ET (46 Lambs) with his lambs showing the best growth rates with plain bodies. He was also entered in the 2011 New England Sire Evaluation Program and is an Industry trait leader for body weight.

Semen Available for export
